

Annex Seven
Trends in Canada's Climate Finance Disbursements, 2016/17 to 2018/19

Table One: Annual Climate Finance Disbursements

Millions of Canadian dollars

	Adaptation Significant	Adaptation Principal	Mitigation Significant	Mitigation Principal	Total Principal Purpose	Total
2018	\$ 67.8	\$ 113.8	\$ 32.3	\$ 351.1	\$ 464.9	\$ 565.0
2017	\$ 65.9	\$ 44.7	\$ 30.8	\$ 331.5	\$ 376.2	\$ 472.9
2016	\$ 59.9	\$ 45.9	\$ 29.4	\$ 172.5	\$ 218.4	\$ 307.7
2015	\$ 76.1	\$ 77.4	\$ 25.7	\$ 163.4	\$ 240.8	\$ 342.6
Total	\$ 269.7	\$ 281.8	\$ 118.2	\$ 1,018.5	\$ 1,300.3	\$1,688.2

Table Notes and Adjustments

1. The disbursements recorded in the table for 2015 relate to Canada's disbursement to the Green Climate Fund, which was made at the end of that fiscal year.
2. Includes all Federal Departments, including IDRC, except for 2015/16.
3. Adaptation/Mitigation adjusted for actual loan disbursements for Canada's private sector loan funds at the MDBs.
4. Adaptation/mitigation adjusted for actual disbursements from the GCF up to March 2020.
5. Includes no disbursements for MDB replenishments, but including IFAD and GEF.
6. Disbursements for significant purpose climate finance adjusted to 30%
