

Briefing Note Fifteen: Annex One
\$2.65 Billion Climate Pledge Projects

A. \$2.65 Billion Mitigation Project Commitments

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M1	Transformative Carbon Asset Facility (TCAF)	TCAF supports developing countries in planning, implementing, and scaling up their Nationally Determined Contributions (NDCs) to accelerate the transition to low-carbon economies. This project supports ambitious greenhouse gas emission reduction programs in developing countries using results-based financing,	World Bank	100%	\$3.0
M2	Partnership for Market Implementation (PMI)	Support 30 countries and jurisdictions in the development and implementation of carbon pricing instruments to meet their NDC targets and long-term decarbonization strategies.	World Bank	100%	\$5.0
M3	Support to the Energy Sector in the Caribbean	This project aims to strengthen economic growth in the Caribbean by supporting the development of renewable energy. It seeks to strengthen the legal and regulatory framework of the energy sector in the Caribbean	Caribbean Development Bank	100%	\$5.0
M4	Supporting Renewable Energy and Energy Efficiency in the Caribbean (EcoMicro)	established to pilot green finance for Micro, Small and Medium Enterprises (MSMEs) including small farmers and low-income households in countries across the Caribbean.	Inter-American Development Bank - In consortium with Développement international Desjardins (DID	100%	\$7.2

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M5	G7 African Renewable Energy Initiative (AREI) Coordination, Monitoring and Evaluation, and Technical Assistance	Aims to maximize the developmental impact of this initiative by exploring bankable investments in off-grid solutions in rural area	World Bank, IFC Advisory Services	100%	\$5.0
M6	Clean Energy and Forest Climate Facility (CCEFCF) - Forests and Landscapes Program	Part of Canada-World Bank Clean Energy and Forest Climate Facility (CCEFCF) initiated March 2020. his project supports the transition to sustainable land use and the reduction of greenhouse gas emissions from forests and landscapes in targeted countries and increase area of sustainably managed forests and landscapes and enhanced livelihoods for women and men.	World Bank	100%	\$75.0
M7	IFC-Canada Blended Climate Finance Program (BCFP)	See detailed projects financed to date in Annex Two of 2021 C4D Climate Report	World Bank IFC	95%	\$237.5
M8	Canadian Climate Fund for the Private Sector in Asia (ADB)	See detailed projects financed to date in Annex Two for 2021 C4D Report	Asia Development Bank		\$200.0
M9	Supporting Renewable Energy in Africa - Africa Renewable Energy Initiative (AREI)	See detailed projects financed to date in Annex Two for 2021 C4D Report	World Bank	100%	\$150.0
M10	Clean Energy and Forest Climate Facility (CCEFCF) - Energy Transition Program	This project aims to slow the expansion of coal in the electricity sector by developing low-carbon alternatives (including solar, wind, and geothermal) and improving energy efficiency and grid upgrades in targeted countries.	World Bank	100%	\$275.0

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M11	Canadian Climate Fund for the Private Sector in the Americas (IDB) - Phase 2	See detailed projects financed to date in Annex Two for 2021 C4D Report	Inter-American Development Bank	64%	\$143.0
M12	Clean Energy and Forest Climate Facility (CCEFCF) - Renewable Energy in Small Island Developing States Program	Canada-World Bank Clean Energy and Forest Climate Facility (CCEFCF), including \$10M for Gender equality in the renewable energy sector in SIDS.	World Bank	100%	\$60.0
M13	Canada-African Development Bank Climate Fund (CACF)	The Canada-African Development Bank Climate Fund (CACF) seeks to reduce greenhouse gas emissions by scaling up renewable energy, supporting energy efficient projects, and developing green infrastructure and sustainable cities (e.g. waste management, urban transport, green infrastructure, and digital solutions)	Africa Development Bank	60%	\$79.9
M14	Supporting implementation of the Kigali Amendment on the phase-down of Hydrofluorocarbons (HFCs)	Canada provided bilateral support for the ratification and early implementation of the Kigali Amendment on the phase-down of hydrofluorocarbons (HFCs) by 11 developing countries		100%	\$3.3
M15	Haiti Clean Energy Action Plan	The project was intended to produce a national action plan for the clean energy sector to restructure the energy used by households and small businesses by reducing use of wood or charcoal and promoting alternatives.	UN Foundation	100%	\$1.2

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M16	Support to the Climate Finance Access Network (CFAN)	This project aims to support the most climate vulnerable developing countries, including Pacific Small Island Developing States, in building their capacity to structure and secure public and private finance for priority climate mitigation and adaptation investments.	Rocky Mountain Institute	50%	\$4.8
M17	Accelerator for Women climate entrepreneurs	This project aims to improve the entrepreneurial ecosystems for women entrepreneurs in Sub-Saharan Africa so that they can play a transformative role in the transition towards low-carbon and climate-resilient communities.	Aga Khan Foundation	50%	\$1.0
M18	Climate Finance Gender Lens Investing Challenge Fund (Convergence)	Provide design-stage funding to practitioners developing blended finance solutions focused on climate change and gender equality	Convergence	50%	\$2.5
M19	Participatory Water Management and Climate Resilience for Andean Women and Men	This project promotes the conservation, restoration, and rehabilitation of natural ecosystems (“natural infrastructure”) to improve water security and climate risk resilience in Peru.	USAID	50%	\$8.1
M20	Transforming the Market for Stoves and Clean Energy in Haiti	The project aims to boost the market for energy efficient stoves and clean energy in order to protect the environment, improve the health of women and children and strengthen women's economic empowerment in the stoves and clean energy sector	UN Foundation	100%	\$20.0

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M21	NDC Implementation - Support to enhance measurement, reporting and verification with countries in the Pacific Alliance and West Africa	Canada supports countries in the Pacific Alliance and Western Africa to define regional priorities to address greenhouse gas (GHG) and short-lived climate pollutant (SLCP) emissions and to pursue opportunities to strengthen their capacity to measure, report, and verify (MRV) emissions.	NovaSphere Digital Solutions	50%	\$1.9
M22	NDC Implementation Chile (Waste)	This project will help to reduce methane emissions from the municipal solid waste sector in Chile through capacity-building, technical assistance and innovative approaches.		100%	\$5.9
M23	NDC Implementation Mexico (Oil and gas)	Informing policy decisions to reduce greenhouse gas (GHG) and short-lived climate pollutant (SLCP) emissions in the oil and gas sector. This initiative leverages state-of-the-art Canadian technologies, and expertise for the measurement, reporting and verification (MRV) of GHG and SLCP emissions in the oil and gas sector		100%	\$4.6
M24	NDC Implementation Cote d'Ivoire and Senegal (Waste)	Canada is supporting Côte d'Ivoire and Senegal in reducing greenhouse gas (GHG) and short-lived climate pollutant (SLCP) emissions in their waste sectors to reduce methane from landfills		100%	\$2.1
M25	NDC Implementation Vietnam (Waste)	Canada is supporting two medium-sized cities in Vietnam, Bac Giang and Hoi An, as they work to implement innovative solid waste management solutions		100%	\$ 0.8

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M26	Sustainable Economic Development through Renewable Energy in Jordan	This project aims to improve the livelihoods of poor communities of the Ajloun and Jordan Valley (Deir Alla) regions through the introduction of renewable energy and energy efficiency solutions at home.	Co-Water International	100%	\$20.0
M27	Sustainable Energy and Economic Growth in the Boucle du Mouhoun Region	Reduce Burkina Faso's dependence on fossil fuels and thus increase its inclusive and sustainable economic growth, by electrifying 14 localities from the national electricity grid, promoting certified solar lamps in rural areas, and equipping 30 remote health centres with solar energy systems	Co-Water International	100%	\$17.0
M28	Empowerment of Women for Climate Action in Honduras	The project aims to improve the quality of life and increase economic empowerment of rural and indigenous women and youth whose livelihoods depend on forest resources in 12 municipalities of Western Honduras while promoting adoption of good practices and innovation on use of and management of forest resources by local institutions and organizations.	FAO	100%	\$6.6
M29	Climate and Clean Air Coalition Trust Fund	Agriculture, National Planning, Waste and heavy-duty Vehicles, household cooking, main priorities	Climate and Clean Air Coalition (hosted by UNEP)	100%	\$10.0
M30	Support to the phase down of hydrofluorocarbons (HFCs)	Support for Multilateral Fund of the Montreal Protocol for the phase down of hydrofluorocarbons (HFCs)	Montreal Protocol	100%	\$1.5
M31	Climate Technology Center and Network	Promotes the accelerated transfer of environmentally sound technologies for low-carbon and climate-resilient development in developing countries.	UNFCCC Technology Mechanism	50%	\$1.3

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M32	UNFCCC Capacity Building Initiative for Transparency (CBIT)	Assist developing countries increase their capacity to report transparently their greenhouse gas emissions reductions and their climate efforts, in line with the enhanced transparency requirements laid out in the Paris Agreement.	Global Environment Facility	50%	\$2.5
M33	Green Climate Fund (loan)	Pledge to GCF	Green Climate Fund	67%	\$86.0
M34	Green Climate Fund (grant)	Pledge to GCF	Green Climate Fund	67%	\$148.5
M35	Global Environment Facility (GEF – 6 & 7 Replenishment)	The GEF supports work in a number of areas, including climate change, biodiversity, chemicals and waste, land degradation, international waters, and sustainable forest management. Canada supports activities to address climate change through its regular contributions to the GEF.	Global Environment Facility	75%	\$69.3
M36	Support for Morocco COP22	COP22	UNFCCC	50%	\$0.6
M37	Support to Fiji COP23	COP23	UNFCCC	50%	\$0.7
M38	Greening the Global Financial System	The expected outcomes for this project include: (1) improved quantity, quality and comparability of climate-related disclosures by implementing of a common framework built on the Taskforce for Climate-related Financial Disclosure recommendations; (2) improved capacity of the financial sector to measure and manage climate-related financial risks	UN Special Envoy on Climate Action and Finance	50%	\$1.5

Number	Title	Description	Implementor	Mitigation Share	Commitment (Millions Cdn \$)
M39	CGIAR Institutional Support 2019-2025 - Gender Platform	Support to the Consultative Group on International Agricultural Research's (CGIAR) Generating Evidence and New Directions for Equitable Results (GENDER) Platform.	CGIAR	50%	\$0.8
M40	IFAD Climate Finance	Aimed at supporting climate-smart agriculture in developing countries. This contribution supports IFAD's full environmental and climate mainstreaming agenda whose overarching goal is to strengthen the environmental sustainability and climate resilience of rural people to overcome poverty and achieve food security.	IFAD	50%	\$75.0
M41	Additional Support to IFAD Climate Finance Loan 2019-2021	Aimed at supporting climate-smart agriculture in developing countries. This contribution supports IFAD's full environmental and climate mainstreaming agenda whose overarching goal is to strengthen the environmental sustainability and climate resilience of rural people to overcome poverty and achieve food security.	IFAD	50%	\$95.0
M42	Land Degradation Neutrality Fund – UNCCD	This Fund aims to restore 350,000 hectares of degraded land, create or support 70,000 jobs for vulnerable populations, and reduce or avoid 25 million tonnes of carbon dioxide equivalent in developing countries. The LDN Fund leverages private sector finance to provide debt and equity to small and mid-sized companies working in sustainable agriculture, forestry and other LDN related sectors	UN Convention to Combat Desertification (UNCCD)	50%	\$26.6

Mitigation Summary

Mitigation Total: \$1,864.6 million

Loans: \$1,401.0 million (75%)

Multilateral: \$1,771.4 million (95%)

Bilateral: \$93.2 million (5%)

MDBs: \$1,245.6 million (67%)

Six MDB Funds: \$1,220.4 million

B. \$2.65 billion Adaptation Project Commitments

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A1	Canadian Climate Fund for the Private Sector in the Americas (IDB) - Phase 2	See detailed projects financed to date in Annex Two for 2021 C4D Climate Report	Inter-American Development Bank	36%	\$80.46
A2	National Adaptation Plans Global Network	This funding will help developing countries to build their capacity to plan, develop and implement climate change adaptation action.	International Institute for Sustainable Development (IISD)	100%	\$1.92
A3	Creole Garden Revalorization (Haiti)	The project seeks to develop value chains in the coffee- and cacao-based agroforestry systems while reducing vulnerability to climate change.	Agronomes et Vétérinaires Sans Frontières	100%	\$5.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A4	Adaptation and Valorization of Entrepreneurship in Irrigated Agriculture (AVENIR) (Senegal)	The project aims to improve the socio-economic well-being and resilience of agricultural households, especially women and youth, through climate-friendly agricultural and irrigation practices.	MEDA	100%	\$18.30
A5	Women, Agriculture and Resilience in Senegal	The project aims to increase access to economic opportunities that are adapted to climate change in irrigated crop sectors. The project also aims to increase the ability of women and young adults to control agricultural resources and improve their status and decision-making power within their households, communities and farming organizations.	CECI	100%	\$18.40
A6	Pacific Initiative for Biodiversity, Climate Change and Resilience	Strengthened local and national actors' capacity in Pacific Island Countries to design and implement biodiversity and climate change adaptation projects	Agence Française de Développement	100%	\$10.00
A7	Climate Resilience Execution Agency of Dominica (CREAD	Support the implementation of key Government of Dominica recovery and reconstruction projects; and 2) provide technical assistance to transform systems and build capacity in the civil service so that Dominica is able to manage recovery from future disaster events more effectively.	Dominica Climate Resilience Execution Agency	100%	\$3.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A8	NDC Implementation - Support to enhance measurement, reporting and verification with countries in the Pacific Alliance and West Africa	Canada supports countries in the Pacific Alliance and Western Africa to define regional priorities to address greenhouse gas (GHG) and short-lived climate pollutant (SLCP) emissions and to pursue opportunities to strengthen their capacity to measure, report, and verify (MRV) emissions.	NovaSphere Digital Solutions	50%	\$1.89
A9	Climate Change in Africa: Impacts and Responses for Women and Girls	The project works to strengthen the evidence base in order to improve the design and implementation of gender-responsive climate change policies in sub-Saharan Africa	Partnership for Economic Policy Inc	100%	\$0.80
A10	Women economic empowerment through forestry cooperative development in Morocco	The project seeks to improve the performance of forestry cooperatives to create and sustain decent jobs, including at least 2,000 jobs for women, by supporting sustainable management and processing of rosemary and cedar.	SOCODEVI	100%	\$8.28
A11	Support to the Climate Finance Access Network (CFAN)	This project aims to support the most climate vulnerable developing countries, including Pacific Small Island Developing States, in building their capacity to structure and secure public and private finance for priority climate mitigation and adaptation investments.	Rocky Mountain Institute	50%	\$4.75
A12	Accelerator for Women climate entrepreneurs	This project aims to improve the entrepreneurial ecosystems for women entrepreneurs in Sub-Saharan Africa so that they can play a transformative role in the transition towards low-carbon and climate-resilient communities.	Aga Khan Foundation	50%	\$1.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A13	Insuresilience Global Partnership (IGP) Gender Center of Excellence	Gender-transformative Climate and Disaster Risk Insurance (CDRI) solutions by supporting and scaling up gender informed approaches within the sector.	GIZ - Germany	100%	\$1.60
A14	Climate Finance Gender Lens Investing Challenge Fund (Convergence)	Provide design-stage funding to practitioners developing blended finance solutions focused on climate change and gender equality.	Convergence	50%	\$2.50
A15	Participatory Water Management and Climate Resilience for Andean Women and Men	This project promotes the conservation, restoration, and rehabilitation of natural ecosystems (“natural infrastructure”) to improve water security and climate risk resilience in Peru.	USAID	50%	\$8.10
A16	Climate Risk and Early Warning Systems (CREWS)	Technical assistance to the National Meteorological and Hydrological Services (NMHSs) to develop and deliver impact-based warnings, products and services.	World Meteorological Organization	100%	\$8.87
A17	Strengthening Climate Risk Management in Africa	Support the African Risk Capacity (ARC), a specialized agency of the African Union, to help African countries to effectively integrate disaster management and preparedness operations into their national plans, using innovative market-based approaches such as sovereign risk insurance, for which any payout would be implemented according to pre-agreed contingency plans	World Food Program through the Africa Union	100%	\$40.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A18	Climate Change and Disaster Resilience in Myanmar	Understanding of risks from extreme weather events (floods and tropical cyclones), as well as undertaking risk-informed decision-making in agriculture and rural development sector, and has improved its financial preparedness for managing disasters.	Asia Development Bank	100%	\$10.00
A19	Least Developed Countries Fund (LDCF)	The LDCF provides support to 51 least developed countries that are especially vulnerable to the adverse impacts of climate change for the preparation and implementation of National Adaptation Programmes of Action (NAPAs).	Global Environment Facility	100%	\$37.50
A20	Climate Risk Insurance: Ocean Risk and Resilience Action Alliance (ORRAA)	This project aims to improve the state of coastal resilience for vulnerable populations, particularly women and girls in small island developing states (SIDS) and coastal developing countries, where the Ocean Risk and Resilience Action Alliance's (ORRAA) financial products and projects apply.	The Alliance is co-hosted by Ocean Unite and the Global Resilience Partnership at the Stockholm Resilience Centre	100%	\$2.50
A21	National Adaptation Plans (NAP) Global Network	Coordination of bilateral support and in-country actors. Project aims to reduce vulnerability to climate change for women and men, by improving the quality and integration of gender equality into national adaptation planning and action	National Adaptation Plans Global Network (Focus on Cote d'Ivoire & Marshall Islands)	100%	\$2.00
A22	Canada-CARICOM Climate Adaptation Fund	Focus on disaster risk management through insurance vehicles. Pay premiums for Caribbean Catastrophe Risk Insurance Facility	Caribbean Development Bank / CARICOM	100%	\$20.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A23	Support to the Alliance of Small Island States (AOSIS)	Hiring of a Technical Expert on Sustainable Development to provide technical support to the Lead Negotiator on sustainable development, the Chair of the AOSIS and member states in relation to AOSIS priorities related to climate change and oceans.	UNDP	100%	\$0.05
A24	Support to the Development of Dominica's Climate Resilience and Recover Plan	Develop an enhanced, strategic, gender-sensitive and inclusive Climate Resilience and Recovery Plan (CRRP) that aims to guide resilience-building and reconstruction of Dominica.	Government of Dominica	100%	\$0.10
A25	Community Disaster Risk Reduction Program	This project supports community resilience in the face of natural disasters by undertaking demonstration projects that help identify most effective prevention or mitigation measures. Farmers were trained in climate-smart agriculture practices across 42 communities in Belize and Jamaica.	Caribbean Development Bank	100%	\$20.00
A26	Climate Smart Agriculture in Central America	Sustainably increase their agricultural productivity and improve regional food security, while adapting and building resilience to climate change through AgroLAC 2025, a multi-donor funding platform coordinated by IDB.	Inter-American Development Bank	100%	\$13.00
A27	The Pacific Catastrophe Risk Assessment and Financing Initiative	The Pacific Catastrophe Risk Assessment and Financing Initiative	World Bank Trust Fund	100%	\$1.50

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A28	Environmental Rehabilitation and Improving Livelihoods in Cox's Bazar (Bangladesh)	Providing alternative clean cooking fuel and clean technology stove kits to address their urgent cooking fuel needs and) establishing gender-inclusive, climate-sensitive farming training, technologies and practices to improve their economic livelihoods and food security	UNDP	100%	\$20.00
A29	Advancing Gender-centered Climate Resilience through the Africa Climate Change Trust Fund	This project contributes to the Africa Climate Change Fund (ACCF), focusing on gender equality and climate action in Africa. It will support small-scale, climate-resilient projects aimed at increasing women's economic empowerment and initiatives enhancing women's participation in climate negotiations in countries across Africa.	African Development Bank	100%	\$7.00
A30	Sustainable Landscapes for Climate-Resilient Livelihoods	Land4Life aims to increase economic- and climate-resilience livelihoods and food security for poor and vulnerable groups, particularly women and girls, in Indonesia.	World Agroforestry Center (part of CGIAR) – Indonesia	100%	\$17.00
A31	Building Resilience to the Impacts of Climate Change and COVID-19 (Burkina Faso)	This project aims to strengthen the resilience of agro-sylvo-pastoral communities in the Boucle du Mouhoun region, once known as “the breadbasket of Burkina Faso.	FAO	100%	\$3.00
A32	IFC-Canada Blended Climate Finance Program (BCFP)	See detailed projects financed to date in Annex Two for 2021 C4D Climate Report	World Bank IFC	5%	\$12.50
A33	Climate Technology Center and Network	Promotes the accelerated transfer of environmentally sound technologies for low-carbon and climate-resilient development in developing countries.	UNFCCC Technology Mechanism	50%	\$1.25

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A34	UNFCCC Capacity Building Initiative for Transparency (CBIT)	Assist developing countries increase their capacity to report transparently their greenhouse gas emissions reductions and their climate efforts, in line with the enhanced transparency requirements laid out in the Paris Agreement.	Global Environment Facility	50%	\$2.50
A35	Mathematical Sciences for Climate Change Resilience in Africa	The Mathematical Sciences for Climate Change Resilience in Africa project supports the African Institute for Mathematical Sciences (AIMS) to build a critical mass of mathematical scientists, women in particular, who can address the continent's complex development challenges.	IDRC	100%	\$19.60
A36	Green Climate Fund (loan)	See Annex Two for C4D 2021 Report	Green Climate Fund	37%	\$42.34
A37	Green Climate Fund (grant)	See Annex Two for C4D 2021 Report	Green Climate Fund	33%	\$73.16
A38	Canada-African Development Bank Climate Fund (CACF)	The Canada-African Development Bank Climate Fund (CACF) seeks to reduce greenhouse gas emissions by developing green infrastructure.)	African Development Bank	40%	\$53.10
A39	IFAD Climate Finance	Aimed at supporting climate-smart agriculture in developing countries. This contribution supports IFAD's full environmental and climate mainstreaming agenda whose overarching goal is to strengthen the environmental sustainability and climate resilience of rural people to overcome poverty and achieve food security.	International Fund for Agriculture and Development (IFAD)	50%	\$75.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A40	Additional Support to IFAD Climate Finance Loan 2019-2021	Aimed at supporting climate-smart agriculture in developing countries. Supports IFAD's full environmental & climate mainstreaming agenda whose overarching goal is to strengthen the climate resilience of rural people to overcome poverty & achieve food security.	International Fund for Agriculture and Development (IFAD)	50%	\$95.00
A41	Land Degradation Neutrality Fund – UNCCD	This Fund aims to restore 350,000 hectares of degraded land, create or support 70,000 jobs for vulnerable populations, and reduce or avoid 25 million tonnes of carbon dioxide equivalent in developing countries. The LDN Fund leverages private sector finance to provide debt and equity to small and mid-sized companies working in sustainable agriculture, forestry and other LDN related sectors like green infrastructure and ecotourism.	UN Convention to Combat Desertification (UNCCD)	50%	\$26.55
A42	Global Environment Facility (GEF – 6 & 7 Replenishment)	The GEF supports work in a number of areas, including climate change, biodiversity, chemicals and waste, land degradation, international waters, and sustainable forest management. Canada supports activities to address climate change through its regular contributions to the GEF. See also M34.	Global Environment Facility	25%	\$23.10
A43	Support for Morocco COP22	COP 22	UNFCCC	50%	\$0.60
A44	Support to Fiji COP23	COP23	UNFCCC	50%	\$0.70

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A45	Expansion of Agricultural Insurance Index in the Casamance Region (Senegal)	Collect basic rainfall data that is required to roll out agricultural index insurance in this region, contributing to climate change adaptation.	Compagnie nationale d'assurance agricole du Sénégal	100%	\$1.44
A46	Greening the Global Financial System	The expected outcomes for this project include: (1) improved quantity, quality and comparability of climate-related disclosures by implementing of a common framework built on the Taskforce for Climate-related Financial Disclosure recommendations; (2) improved capacity of the financial sector to measure and manage climate-related financial risks	UN Special Envoy on Climate Action and Finance	50%	\$1.50
A47	CGIAR Institutional Support 2019-2025 - Gender Platform	Support to the Consultative Group on International Agricultural Research's (CGIAR) Generating Evidence and New Directions for Equitable Results (GENDER) Platform.	CGIAR	50%	\$0.75
A48	Community Resilience Building (Belize, Saint Vincent and the Grenadines, Suriname)	The goal of this project is to increase the community resilience by applying a gender-responsive and ecosystem-based approach to community disaster risk management and climate change adaptation. The project will scale-up community resilience using existing disaster management planning tools in 20 communities.	Canadian Red Cross	100%	\$5.00

Number	Title	Description	Implementer	Adaptation Share	Commitment (Millions Cdn\$)
A49	Cashew, Mango and Gardening Value Chains Development for the Benefit of Women and Youth (Haiti)	The project seeks to improve the economic well-being and reduce the vulnerability of Haitians living in rural areas, including vulnerability to climate-related risks.	SUCO	100%	\$5.00
A50	Climate Adaptation and Economic Development of Agricultural Sectors in Haiti	This project is working to promote good agricultural practices that sustainably increase the value added and promote climate change adaptation and resilience in the cacao, yam, cassava, and gardening value chains, while also strengthening farmers' organizations	CECI	100%	\$13.00
A51	Productive, Inclusive and Adapted to Climate Change Coffee Value Chains (Haiti)	The project aims to improve the economic well-being and reduce the vulnerability of approximately 3,000 families in the Grand'Anse and Artibonite regions in Haiti through agro-ecology and agroforestry approach.	Oxfam Quebec	100%	\$13.00

Adaptation Summary

Adaptation Total: \$833.61

Loans: \$380.95 (46%)

Multilateral: \$690.93 (83%)

Bilateral: \$142.68 (17%)

MDBs: \$217.56 million (26%)

Total Project Commitments

Mitigation: \$1,864.57 million (69%)

Adaptation: \$833.61 million (31%)

Total Climate Finance: \$2,698.18 million

Loans: \$1,781.95 (66%)

Multilateral: \$2,462.33 million (91%)

Bilateral: \$235.88 million (9%)

MDBs: \$1,463.16 million (54%)

Six MDB Funds: \$1,312.82 million (49%)

This Briefing Note was research and written by Brian Tomlinson, AidWatch Canada, in July 2022 and updated in January 2023. It has been prepared on behalf of the [Canadian CSO Coalition on Climate Change and Development \(C4D\)](#).
